Job Description

As a Safety (HSSE) Officer, you will be responsible for implementing and overseeing the company's health, safety, security, and environmental policies to ensure a safe work environment for all employees. You will conduct risk assessments, enforce safety regulations, and train staff on safety protocols. You will be expected to inspect the construction site regularly, ensure compliance with OSHA and local regulations, and lead incident investigations.

Key Responsibilities:

- Develop and implement HSSE policies and procedures.
- Conduct regular site inspections to identify hazards and ensure compliance.
- Deliver safety training sessions to employees and subcontractors.
- Investigate and report accidents, incidents, and near misses.
- Prepare and maintain safety documentation, including reports and audits.
- Ensure that safety gear and equipment are in good working condition.

LAB TECHNICIAN

Qualifications:

- Diploma in Laboratory Technology, Civil Engineering, or a related field.
- 2+ years of experience in a construction materials lab.
- Knowledge of Tanzanian construction material standards.
- Familiarity with lab testing equipment and procedures.
- Attention to detail and strong analytical skills.

www.adventconstructions.com

Job Description

As a Lab Technician, you will perform various tests on construction materials (e.g., soil, concrete, asphalt) to ensure they meet the required standards and specifications. You will work closely with engineers to provide accurate data for project decisions.

Key Responsibilities:

- Conduct laboratory tests on construction materials, such as soil, concrete, and aggregates.
- Prepare reports on material quality, durability, and compliance with standards.
- Calibrate and maintain testing equipment to ensure accurate results.
- Assist in quality control processes and inspections on-site.
- Maintain clear and organized laboratory records.

SURVEYOR

Qualifications:

- Degree or Diploma in Land Surveying or Geomatics.
- Minimum 3 years of experience as a Surveyor in the construction industry.
- Proficiency with surveying instruments and software (e.g., AutoCAD, GIS).
- Knowledge of land laws and regulations in Tanzania.
- Strong mathematical and analytical skills.

www.adventconstructions.com
.....

Job Description

The Surveyor will be responsible for conducting land surveys to determine precise measurements for construction projects. You will use various surveying equipment to measure and map land areas, ensuring accuracy for site layouts and project execution.

Key Responsibilities:

- Conduct topographic, boundary, and layout surveys for construction projects.
- Use GPS, total stations, and other surveying instruments to measure land and structures.
- Interpret and analyze survey data to prepare reports, maps, and drawings.
- Work closely with engineers and project managers to ensure the accuracy of site layouts.

STOREKEEPER

Qualifications:

- Diploma in Procurement, Supply Chain Management, or related field.
- 2+ years of experience in inventory management or store-keeping in a construction setting.
- Proficiency in inventory software and Microsoft Office.
- Strong organizational and time management skills.
- Ability to handle physical demands of the job.

www.adventconstructions.com

Job Description

The Storekeeper will be responsible for managing and maintaining the inventory of construction materials and tools. You will oversee the storage, distribution, and tracking of supplies, ensuring that the site has everything needed to operate efficiently.

Key Responsibilities:

- Receive, verify, and store incoming materials and tools.
- Maintain accurate inventory records and issue materials to site staff as needed.
- Monitor stock levels and coordinate with procurement for timely reordering.
- Ensure proper handling and storage of materials to avoid damage or loss.
- Conduct regular stock audits and generate inventory reports.
